Call for Abstract Papers - CHC Conference

The Complementary Healthcare Council of Australia (CHC) is calling for abstract paper proposals for presentation at the industry's leading National Conference being held at the Sofitel Wentworth, Sydney between 3rd and 5th September 2013. Submissions close on Thursday 20 June.

"Presenters will have access to a captive audience of approx. 200 - 300 delegates. Typically they include representatives from a cross-section of the industry such as raw material suppliers, product developers, manufacturers, sponsors, packaging companies, marketers, exporters and important stakeholders", said Dr Wendy Morrow, Executive Director of CHC.

"This year our theme is *Evolution or Revolution...the future of complementary medicines*. With the Federal election one week after our conference, we look forward to many exciting proposals coming our way", said Dr Morrow.

The conference presentation program has three streams: Science, Commerce and Political. Accordingly presenters are asked to address one of the three areas.

Abstract proposals can be submitted via the [online form](#) on the [CHC website](#) and should not exceed 300 words.

More information can be sourced from the [CHC website](#), or by contacting Casuarina.Forsyth@chc.org.au or Chelsea.vanzyl@chc.org.au

The Complementary Healthcare Council of Australia (CHC)

The CHC is the leading Australian industry body committed to a vital and sustainable complementary healthcare products industry. We believe in a holistic healthcare model based on promoting long-term wellness of the community. We are the principle reference source for government, industry and consumers regarding issues relating to the complementary healthcare industry including complementary medicines.

We represent complementary healthcare industry stakeholder groups such as importers, exporters, manufacturers, raw material suppliers, wholesalers, distributors, retailers, practitioners, consultants, marketers and consumers.

What are complementary medicines and natural healthcare products?

Complementary medicines and natural healthcare products cover a diverse range of products including vitamins, mineral and nutritional supplements, special purpose foods, herbal and homoeopathic medicines, aromatherapy products and natural cosmetics.
